George Town – The Pride of Penang

A Penang Photography Festival (to celebrate the World Heritage status for George Town, Penang) organised by the Photographic Society of Penang & Penang Tourism Action Council.

On July 7, 2008, Penang was finally listed as World Heritage Site under the much sought after listing by nations across the globe. This was accorded by the United Nations Educational Scientific and Cultural Organisation (Unesco). As photographers we are celebrating this recognition with a photography festival "George Town-The Pride of Penang" which is organised by Photographic Society of Penang & Penang Tourism Action Council.

We Penangites would like to invite photographers from all over the globe to celebrate this occasion together with us. For 5 days and 4 nights with our unique photographic senses we will seek out the architectural building structures and characters of the site which has made it so unique as we twist and wind through the streets which once have and still housed people of different races, culture and religion for more than 200 years. Creating photographic images and records on this historical site with its multi-racial structure will definitely instill into us the need for such a heritage site. Apart from this we will also showcase the multi local cuisine and local lifestyle for you to experience and share.

Penang welcomes you to feel her uniqueness! Penang belongs to you! Penang belongs to the world!
